---

## OBJECTIVE

---

Enthusiastic software developer with strong problem-solving skills, aiming to gain hands-on experience in a challenging internship position. Eager to contribute to innovative projects and develop industry-standard skills in software engineering.

## EDUCATION

---

Bachelor of Technology in Computer Science Engineering

GLA University, Uttar Pradesh

Expected Graduation: 2026

CGPA: 7.37

**Relevant Coursework:** DBMS, Operating Systems, Data Structures, Full Stack Web Development

## SKILLS

---

- **Programming Languages:** Java, SQL, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, React
- **Databases:** PostgreSQL
- **Tools & Technologies:** Git, GitHub, IntelliJ IDEA
- **Operating Systems:** Basic Linux, macOS
- **Problem Solving:** 150+ questions solved on LeetCode

## PROJECT

---

### Job Portal Web Application

- Tech Stack: Java, Spring Boot, PostgreSQL, React
- Designed a dynamic job portal web application featuring secure user authentication, efficient data handling with PostgreSQL, and a responsive UI using React.
- Implemented key functionalities, including job postings, application tracking, and real-time search capabilities.
- Optimized the application for scalability and user experience.

## CERTIFICATIONS

---

- **Java Programming:** Comprehensive course covering core Java concepts.
- **Data Structures and Algorithms:** Advanced course focusing on efficient problem-solving and optimization techniques.
- **SOLID Principles:** Understanding of object-oriented design principles for maintainable and scalable software.
- **NPTEL Certifications:**

- *E-Business*
- *Management Information Systems*
- *Ethics in Engineering Practice*

#### ADDITIONAL INFORMATION

---

- **Languages:** Hindi, English
- **Professional Development:** Self-motivated learner with extensive experience in data structures and algorithms, with over 150+ questions solved on LeetCode.
